## PROJECTS

### Tribus

Tribus is a e-commerce website as developed as a team project in core php in 6th semester in college.

<https://github.com/pramesh-exe/teamProject>

### Job Portal

It was the first crud, completed project based on laravel while I was learning laravel.

<https://github.com/Kapil9861/Laravel/tree/main/laravel1/JobPortal>

### Permissions

It is the first project with implementation of laravel spatie for user's role and permission.

<https://github.com/Kapil9861/Laravel/tree/main/laravel1/Permissions>

### Student's Portfolio

This is the first website developed and hosted in php as assignment in the fifth semester.

<https://github.com/Kapil9861/WAT/tree/main/wat2022Me>

### Expense Tracker

This is a simple application that was developed while learning Flutter implementing themes and crud operations, which keeps track of the users expenses.

<https://github.com/Kapil9861/Flutter>

### Sajilo Hisab

This is my best solo project till the date as it is developed as my final year project in my bachelors, which calculates the nepali card games' points namely call break and marriage card games.

<https://github.com/Kapil9861/ProductionProject.git>

### Sajilo Hisab Website

This is an informative but static website developed using Laravel that helps user to learn and use the Sajilo Hisab application.

Hosted as: <https://sajilohisab-production-a254.up.railway.app/>

<https://github.com/Kapil9861/SajiloHisab.git>

### MEALS, Flutter Internals

Simple projects that were developed while learning Flutter, for navigating through multiple screens working with navigation outside of the applications.

<https://github.com/Kapil9861/Flutter>

### The Designers

This is a small laravel based website related to the designs that is developed to learn and implement the payment system with cards using stripe.

<https://thedesigners.up.railway.app/>
