🚀 PROJECTS

Tribus

Tribus is a e-commerse website as developed as a team project in core php in 6th semester in college.

https://github.com/pramesh-exe/teamProject

Job Portal

It was the first crud, completed project based on laravel while I was learning laravel.

https://github.com/Kapil9861/Laravel/tree/main/laravel1/JobPortal

Permissions

It is the first project with implementation of laravel spatie for user's role and permission.

https://github.com/Kapil9861/Laravel/tree/main/laravel1/Permissions

Student's Portfolio

This is the first website developed and hosted in php as assignment in the fifth semester.

https://github.com/Kapil9861/WAT/tree/main/wat2022Me

Expense Tracker

This is a simple application that was developed while learning Flutter implementing themes and crud operations, which keeps track of the users expenses.

https://github.com/Kapil9861/Flutter

Sajilo Hisab

This is my best solo project till the date as it is developed as my final year project in my bachelors, which calculates the nepali card games' points namely call break and marriage card games.

https://github.com/Kapil9861/ProductionProject.git

Sajilo Hisab Website

This is an informative but static website developed using Laravel that helps user to learn and use the Sajilo Hisab application.
Hosted as: https://sajilohisab-production-a254.up.railway.app/

https://github.com/Kapil9861/SajiloHisab.git

MEALS Flutter Internals

MEALS, Flutter Internals

Simple projects that were developed while learning Flutter, for navigating through multiple screens working with navigation outside of the applications.

https://github.com/Kapil9861/Flutter

The Designers

This is a small laravel based website related to the designs that is developed to learn and implement the payment system with cards using stripe.

https://thedesigners.up.railway.app/

Map, Providers and Socket

This is a simple representation of the google map integration and tracking the location, learning providers implementation and socket implementation.

https://github.com/Kapil9861/Flutter/tree/master/api_and_socket/socket_and_maps

Firebase Authentication

This is a simple application that contains Google Account Sign in, Sign in using email, Logic for Apple Login but the settings are not updated lacking the X-Code.

https://github.com/Kapil9861/Flutter/tree/master/firebase_first

Todo Application

This is a simple firebase application with crud and flutter clean architecture that updates data from the cache of the device updating the data in the database in real time.

https://github.com/Kapil9861/Flutter/tree/master/firebase_crud

🏆 ACHIEVEMENTS

SEE Topper

I am SEE topper of batch 2017 of Emmanuel English School located at Gatthaghar Bhaktapur securing 3.80 GPA.

+2

Completed my high school degree from the KMC, Latlitpur located at Kharibot with GPA 3.14 of batch 2019.
